Construction Project

Help the glazier and her crew determine how many windows she will be installing for the new skyscraper in Atlanta.

Jane from XYZ Window Company is installing windows in the new skyscraper construction this spring. The building will be 120 stories tall with 75 windows in each row for the building's front side. Jane estimates that her crew will complete the entire install in 3 weeks or 120 hours with their special equipment.

How many windows are there in all for just the front of the building?

_____ How many windows will be installed each hour? _____
